Colonel Dwight C. Sones  
Commander, 60th Air Mobility Wing  
400 Brennan Circle, Travis AFB CA 94535

Dear Colonel Sones:

We hope that you have received our letter dated December 9, 2011. Since sending the letter, we have continued to investigate the Travis AFB display and have learned that we erroneously stated that there are Wise Men in the Nativity Scene installation. We have also learned that there may be other displays on the base. We do not believe that either of these two additional pieces of information changes our analysis that using the Nativity Scene and Menorah, or other religious symbols, as the prominent element of the display on the main thoroughfare violates the First Amendment. We would, however, appreciate if you would provide us with further information regarding all installations, including their size, content, and proximity to the Nativity scene and Menorah.

Thank you for your time and attention to this matter.

Sincerely,

Katherine S. Ritchey
